## **LETTER OF RECOMMENDATION**

**To: Whoever it may concern**

This is to certify that Shivansh Mittal, NRIC [REDACTED], worked as a summer intern at BWO Offshore's office in Oslo Norway during the month of June 2022 where he was given and performed tasks for the engineering department under my supervision.

Tasks performed in the Piping Discipline were done professionally and with great eagerness with good results delivered.

I can therefore highly recommend the employment/engagement of Shivansh Mittal for any discipline field that he is qualified for and/or can develop deeper into.

Being a contractor in BW Offshore at the time I worked with Shivansh, this letter of recommendation is therefore sent on my own company's behalf.

Please do not hesitate to contact for any questions you may have or require any further clarifications.

Sincerely

A handwritten signature in blue ink that reads 'G. Payet'.

Gerard Payet – 19.07.2022

Senior Layout/Piping Engineer
